## **Cruciate Ligament Exam Form**

Your Petsecure policy has a waiting period of 6 months starting from the initial commencement date of the policy for cruciate ligament (and related) conditions. This waiting period may be waived depending on the results of a veterinary examination of your pet.

To apply for this waiting period to be waived:

- Your vet must examine your pet and complete and sign this form (at your expense) on or after the policy commencement date.
- The completed and signed form must be received within 14 days of the examination date.

Part 1: Your (Policyholder) details and Pet's details (one form to be completed per insured pet)				
Incured's Policy Number		Pet's Name:		
Insured's Policy Number: Policyholder's Name:				
Suburb:				
State:	Postcode:			
Telephone (H):		Colour:		
Email:	, ,			
		ŭ		

## Part 2: Important

You will receive written confirmation from us in the event that the waiting period for cruciate ligament conditions in respect of your pet is reduced. Unless you receive such written notification, the waiting period in respect of the pet identified on this form remains at 6 months for cruciate ligament conditions starting from the policy commencement date.

The cost of this examination is not claimable under your Petsecure policy.

## Vet to complete sections overleaf
